

About us

Our **mission** is to build a safer world for billions of people.

To accomplish this mission, we deliver a blockchain intelligence platform and AI solutions to help financial institutions, crypto networks, and governments fight cryptocurrency fraud and financial crime. We consider our business — and our profit — as a way to move towards our mission sustainably and at scale.

Our **vision** is to be the intelligence leader for fighting crime.

Inspiring Mission

“Careers are a team sport. If you work with amazing people, you have opportunities do amazing things” — [Ari Redbord](#)

The TRM Way

TRM Labs is intentionally designed around three **Leadership Principles**. These inform how we make decisions, how we execute, and how we treat each other.

Impact - Oriented Trailblazer
We define high-impact targets through customer centricity, prioritization, and adaptability.

Master Craftsperson
We execute efficiently to achieve results through good judgement, velocity, and grit.

Inspiring Colleague
We elevate performance through integrity, apprenticeship, and positive energy.
